

Who is eligible to hold Instalment Savings?

- (a) an individual aged 18 years or more;
- (b) an individual aged less than 18 years, but only with the written consent of their parent or guardian;
- (c) jointly, by Joint Holders.

Maximum and Minimum Instalment

The maximum instalment is €1,000 per month whether in a sole holding or a joint holding. Unlike the other State Savings products the maximum does not increase if more names are added to the account. The minimum monthly instalment is €25.

Methods of payment by instalment

Instalments may be paid by post, direct debit (on or after the 20th of each month), or by arrangement with your employer under a Group Savings Scheme (Your workplace Group Secretary will have application forms). Please see Terms and Conditions for further detail in relation to Group Schemes.

The attached application form allows you to select your preferred payment method.

Child Benefit

If your monthly child benefit is paid into your bank account you can arrange for it to be paid into an Instalment Savings account by completing the attached Direct Debit mandate.

Alternatively you can arrange for the automatic payment of your monthly Child Benefit by the Department of Employment Affairs & Social Protection directly into an Instalment Savings account. For contact details see page 6.

The National Treasury Management Agency (NTMA) reserves the right to alter from time to time the Terms & Conditions (including rates of return) applicable to its products. The rate of return applicable to lodgments made to Instalment Savings will be the rate applicable at the date the first instalment in each 12 month cycle of instalments is made – see Contribution Period on page 3. You will be issued with an Annual Statement of Account but you may request a Statement at any time.

The State Savings Products are:

		State Savings Products
Total Return ¹	AER ²	FIXED RATE, FIXED TERM
1.00%	0.33%	3 year Savings Bonds ³
2.00%	0.50%	4 year National Solidarity Bond ³
3.00%	0.59%	5 year Savings Certificates ³
10.00%	0.96%	10 year National Solidarity Bond ³
3.50%	0.63%	6 year Instalment Savings ^{3,4} (ALSO FOR CHILD BENEFIT)
		VARIABLE RATE⁷
0.05%		Deposit Account ⁵
0.35%		Prize Bonds ⁶

¹ Rates effective 24 January 2021.

² AER = "Annual Equivalent Rate".

³ Not subject to tax in Ireland but please see Condition 4 Taxation in Specific Conditions.

⁴ Save in 12 monthly instalments and leave for 5 years.

⁵ Subject to DIRT (Deposit Interest Retention Tax) at the prevailing rate.

⁶ Prize Bonds – The variable rate used to calculate prize fund is 0.35%. There are four €250,000 prizes per annum and thousands of weekly prizes. No interest is paid to Prize Bond holders. Instead the interest is paid into the monthly prize fund, to be distributed to winners in the weekly draw.

⁷ Variable Rate means that the interest rate paid on this Product may be changed by the NTMA from time to time. Such changes will be notified by at least one of the following methods: publication in a national newspaper, publication on StateSavings.ie or notification by any other means.

Brochures and Application Forms for State Savings Products listed above are available in any Post Office or online at StateSavings.ie. State Savings products are subject to Terms and Conditions and relevant legislation. You may find our Terms and Conditions booklet online and in Post Offices.

5. Contact Us

Please contact us for further information at 0818 20 50 60, (Monday to Friday). Additional contact details are on Page 6.

Contribution Period

The Instalment Savings product allows you to save a fixed amount of money each month for a period of 12 months, known as the 'Contribution Period'. At the end of the Contribution Period, your accumulated savings earn interest for 5 years. This product currently pays a total return of 3.5% (AER 0.63%*).

Term of Product

The term of the product is 6 years from the date of lodgement of your first monthly instalment. This is made up of the initial 12 month Contribution Period during which your monthly lodgements accumulate and the 5 year period during which interest is earned, known as the 'Interest Bearing Period'.

Early Redemption

You can cease making lodgements during the Contribution Period and/or withdraw your savings at any time during the 6 year term of the product. Any such withdrawals are subject to a 7 day notice period and the product's Terms and Conditions. While no penalties apply for early withdrawals, the return payments are structured so as to favour savers who hold the product for the full 6 year term. Therefore your return will be lower than the advertised 0.63%* AER if you withdraw your savings before the end of the 6 year product term. See table below for further information on the structure of the return payments.

Return

The Instalment savings product pays a total return of 3.5% tax free (AER of 0.63%*) if the product is held for its full 6 year term. Details of the payment structure are set out in the following table:

Completed years since the commencement of Interest Bearing Period	1	2	3	4	5
Total Return %	0.0%	0.25%	0.35%	0.50%	3.50%
Annual Equivalent Rate - AER	0.0%	0.10%	0.10%	0.11%	0.63%
Encashment value of €1,000 at end of period	€1,000.00	€1,002.50	€1,003.50	€1,005.00	€1,035.00

* The AER of 0.63% is based on a 12 month average term - calculated on the basis that the accumulated lodgements during the Contribution Period translates into an average holding period of half a year plus the 5 year period, commencing at the end of the Contribution Period.

Note:

- The product does not pay any interest during the Contribution Period. Thus, where repayment takes place within the Contribution Period, no interest will be paid.
- The payments shown for years 1, 2, 3, 4 and 5 of the Interest Bearing Period will only be paid if the savings are held in the product for the entire relevant 12 month period.
- Where withdrawals are made during the relevant 12 month period, the total interest payable will be equal to the sum of (i) the Total Cumulative Interest Percentage (Total Return) for the most recent anniversary date as indicated in the table on the previous page applied to the Principal Amount being redeemed and (ii) an amount calculated at a rate of 0.00% per annum on the portion of the Principal Amount being redeemed for the number of days (if any) from (and including) the date of the most recent anniversary of the date on which the Interest Bearing Period commences to (but excluding) the date of Early Redemption.

Example of Early Redemption

If Instalment Savings have a Principal Amount of €1,000, and are redeemed in whole 2 years and 160 days after the commencement of the Interest Bearing Period, the Interest payable is: €2.50 (applying the Total Cumulative Interest Percentage (Total Return) of 0.25% due on the 2nd anniversary of the date of commencement of the Interest Bearing Period); and €0.00 (applying the annual rate of 0.00% to the 160 days from the 2nd anniversary of the date of commencement of the Interest Bearing Period to (but excluding) the date of Early Redemption), giving total Interest payable of €2.50 and a total return (Principal Amount and Interest) of €1,002.50. For the avoidance of doubt, no interest shall accrue during the Contribution Period.

New Savings Cycles (after completion of first 12 months Instalments)

Lodgements made after the end of the 12 month Contribution Period will be treated as a new instalments savings cycle. The return on each subsequent cycle will be determined by returns applying to State Savings products at the time the new cycle(s) commence. These may be lower or higher than the 3.5% return on the initial instalments savings cycle.
